-- A minimum intro to emacs

```
    emacs foo          (start editing foo)
      fdafda          (added text to file)
      [Ctl]-d         (delete char at cursor; arrow keys to
move.)
      [Ctl]-x [Ctl]-s (save to file foo.)
      [Ctl]-x [Ctl]-c (quit emacs, with option to save.)
```
